WORK EXPERIENCE

Antares Tech

Full Stack Developer   Jun 2024 - Present

ISTQB

- Built and maintained **RESTful APIs** using **Node.js** and **Express.js**, supporting **B2B and B2C workflows**, including **exams, sessions, users, reporting, and voucher management**.
- Engineered optimized **MongoDB data models** for **high-volume exam data, session tracking, real-time user activity, and vouchers**.
- Implemented efficient **query strategies** and **indexing** to improve **API performance** and **data retrieval speed**.
- Applied **AI-driven test synchronization** and **scheduling** using **Node Cron**, enabling **automated background jobs** and **content updates**.
- Implemented automated **database backups** to **AWS**, ensuring **data durability** and **disaster recovery readiness**.
- Containerized **backend microservices** with **Docker**, allowing **admins to create and distribute vouchers** directly from the app, and ensuring **consistent development and production deployments**.

DigioMed Health Tech Pvt. Ltd.

Web Development Intern   Feb 2024 - Jun 2024

- Developed a **cross-platform healthcare application** using **React Native** and **TypeScript**, enabling **seamless communication** between **patients** and **healthcare providers**.
- Built and integrated **backend APIs** with **Django**, implementing **business logic**, **user management**, and **secure data access**.
- Leveraged **Firebase services** for **authentication**, **real-time data synchronization**, and **secure storage** of **sensitive information**.
- **Tech Stack:** React Native, TypeScript, Django, Firebase

PROJECTS

Focus Assam – Exam Preparation App ↗   Dec 2024 - Apr 2025

- Developed **mobile application** using **React Native** for an **exam preparation app**, enabling students to **practice questions** and **track progress** for **competitive exams**.
- Implemented **complete exam flows** including **question navigation**, **result views**, and **progress tracking screens**, with a strong focus on **usability** and **performance**.
- Integrated the **frontend with REST APIs** to **fetch exam content**, **submit answers**, and **display user analytics**.
- Managed **application state** and **data flow** to ensure a **smooth and consistent user experience** across sessions.
- Handled **end-to-end Play Store deployment**, including **app signing**, **build generation**, **Play Console configuration**, **release management**, and **version updates**.

CV Maker ↗   Aug 2023 - Apr 2024

- Developed a **full-stack web application** that enables users to **create, customize, and download professional CVs online**.
- Designed **responsive frontend components** using **Material UI** and **SASS**, delivering a **clean and dynamic user interface**.
- Integrated the **frontend with backend APIs** to efficiently manage **CV data**, **user inputs**, and **file downloads**.

SKILLS

Languages: JavaScript, TypeScript, C++, HTML, CSS, SCSS
Frameworks / Libraries: React.js, React Native, Redux Toolkit, Material UI, Bootstrap, Django
Platforms / Tools: Firebase, Git, GitHub

EDUCATION

Tezpur University

Bachelor of Technology (Computer Science and Engineering)   2020 - 2024
